27 - 28 October 2023

- Organized and supported participants throughout the IT Camp to ensure the event ran smoothly.
- Taught participants how to use Figma to create simple and effective graphic designs.
- Guided hands-on practice sessions to improve their creativity and design fundamentals.

## Selected Projects

### HukumUnmul - Consultation App

LKBH University of Mulawarman | Freelance projects | Android | Flutter | Firebase

Built a legal consultation app with three main services: live chat with admin, legal aid request, and case report submission. Implemented Firebase Authentication to ensure secure user access control. Used Firestore for real-time messaging and secure data storage.

### UniStore - UI Ecommerce App

Personal projects | Mobile | Flutter

Designed and implemented a UI-focused e-commerce app with Flutter, delivering an optimized interface and a seamless user experience.

### StoryAI - AI-Powered Story Generator

Personal projects | Mobile | Flutter | Google AI Studio

- Developed a mobile app for children to generate creative stories using Gemini AI.
- Users enter a prompt and choose a theme, and the app dynamically generates a story.

### Al-Maratush Shalihah - School profile website

Freelance projects | Website | TailwindCSS

Built an engaging school website with a fun, interactive theme and user-friendly interface, offering a modern and appealing digital presence.

### Nusantara fusion - Company profile

Personal projects | Website | TailwindCSS

Designed and developed a responsive cultural culinary website using TailwindCSS, showcasing traditional Indonesian fusion dishes with an emphasis on interactive user experience, intuitive navigation, and visually engaging layouts.

## Achievement

### Best student - IT category

IDN Boarding School

Awarded as the best student in software engineering category 3 times in a row from 1st to 3rd semester. Rated by school projects that have been done and achievements.

### 3th place - Coding competition Indonesia

Coding Bee Academy | Jakarta, Indonesia

Secured 3rd place in a national coding competition with over 50 participants by creating software and demonstrating strong problem-solving skills.

### 2 times Winner in IDN Boarding School Internal competition - Web design category

IDN Boarding School

Secured 1st place twice by creating websites based on topics given during the competition. Demonstrated strong understanding of design principles, responsive design, and front-end development.
